

Ideation Phase

Define the Problem Statements

Date	24 June 2026
Team ID	SWTID-2026-4616
Project Name	Visualization Tool for Electric Vehicle Charge and Range Analysis
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the case about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Example:

I am a traveler	I'm trying to book flights on my phone	But it takes a long time	Because The website is not responsive and doesn't have a mobile version	Which makes me feel Frustrated
--------------------	---	-----------------------------	--	-----------------------------------

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An Electric Vehicle Customer	Compare different electric vehicles based on price, range, efficiency, charging availability and performance	EV information is distributed across multiple sources and difficult to analyse together	There is no centralized analytics platform that provides complete EV insights with interactive visualization	Confused and time-consuming to identify the suitable electric vehicle
PS-2	An Automobile Data Analyst	Analyse electric vehicle market trends, charging infrastructure, brands, efficiency and performance	Large EV datasets are difficult to understand through manual analysis	Existing data lacks proper database integration and interactive dashboards for quick decision making	Challenging to generate meaningful insights from EV data
